# The Ultimate Romantic ESCAPE

Every couple needs some time out once in a while and the cliff-top Anantara Uluwatu Bali Resort & Spa offers the ultimate romantic hideaway, a place to relax, unwind and reconnect, whilst enjoying luxurious accommodation and breathtaking views of the Indian Ocean.

Situated above the famous surf waves of 'Impossible Beach', Anantara Bali Uluwatu Resort & Spa offers some of the best views in Bali. Cascading down the cliff face, this intimate hideaway has 74 luxurious ocean view suites and private pool villas that offer a perfect place for honeymooners and couples to relax in style.

Each suite is beautifully appointed in a rich tapestry of textures and finishes. At an average of 84sqm, the suites offer spacious surroundings for those couples who just want to keep to themselves and with a 42 inch LCD TV, an iPod docking station and Bose sound system, plus a double rain shower and a signature Jacuzzi for two on the balcony the suites are fully equipped for romance.

For those who'd like to venture out of their suite there's still plenty to do at the resort. You can spend a lazy day basking in the sun by the stunning cliff edge infinity pool, revitalise your spirit with a yoga, tai chi or reiki session or get pampered by one of the highly trained therapists at the

Anantara Spa. The extensive treatment menu at the spa pays tribute to Indonesia's Spice Islands, as well as ancient wellness secrets from across Asia and advanced western practices. There are couples treatment rooms available and also facilities for hair and nail treatments too.

Although intimate, there is no shortage of dining options at the resort. There are three restaurants serving world-class food, the 360 Rooftop Restaurant, with panoramic ocean views and a choice of Indonesian and western food, SONO Teppanyaki offering contemporary Japanese cuisine, and live cooking shows, and Sea Fire Salt, the cliff-side BBQ restaurant. For those who want to venture out for the evening for an intimate and romantic evening alone, the resort also offers Dining by Design - a private dining experience where couples can choose their own menu as well as dining location around the resort. With everything on offer Anantara Uluwatu Bali Resort & Spa is a fabulous place to begin... or continue your romantic journey.
